URSINUS COLLEGE

The Act of Incorporation under which Ursinus College is conducted was granted by the Legislature of Pennsylvania February 5, 1869, and is as follows :

AN ACT

TO INCORPORATE URSINUS COLLEGE

SECTION 1. Be it enacted by the Senate and House of Representatives of the Commonwealth of Pennsylvania in General Assembly met, and it is hereby enacted by the authority of the same, that there shall be and hereby is erected, established and incorporated in Upper Providence Township, in the County of Montgomery, in this Commonwealth, an institution of learning, for the purpose of imparting instruction in Science, Literature, the Liberal Arts and Learned Professions by the name, style and title of URSINUS COLLEGE.

SECTION 2. Said College shall be under the care and management of a Board of Directors not exceeding twenty-one in number, who, with their successors in office, shall be and are hereby declared to be one body politic and corporate in deed and in law, to be known by the name, style and title of Ursinus College, and by the same shall have perpetual succession, and shall be able to sue and be sued, plead and be impleaded in all courts of law and equity, and shall be capable in law and equity to take, hold and purchase for the use and benefit of said College any estate in any messuages, lands, tenements, goods, chattels, moneys, and other effects of any kind whatever, by gift, grant, bargain, sale, conveyance, assurance, will, devise or bequest from any person or persons, body politic or corporate, either municipal or otherwise whatsoever capable or lawfully making the same, and the same from time to time to grant, bargain, sell, convey, mortgage, farm, let, place out on interest, or otherwise dispose of for the use and benefit of said College; *Provided, however,* That no bequest or donation made to and accepted by said Board for specific educational objects shall ever be diverted from the purposes designated in the conditions of such gift and acceptance.

SECTION 3. That the Board of Directors shall have power to establish, from time to time, in said College, such departments of study and instruction as they may deem expedient, and to provide libraries, apparatus, cabinets, endowments and all other needful aids for imparting full and thorough

courses of instruction therein. They may appoint a faculty or faculties, professors, lecturers and teachers, prescribe their respective duties, fix their compensation, and remove them, or any of them, as, from time to time, the interests of the College may require; they shall have power to purchase or erect buildings for the accommodation of students, professors and officers, and for other needful purposes; to establish rules and regulations for the government of students and officers, and to do all and singular such other things and matters as may be requisite for the well ordering and proper management of the affairs of said College.

SECTION 4. That the said Board of Directors shall at first consist of the persons herein named, to wit: *James Koons, Sr., J. Knipe, W. D. Gross, H. W. Kratz, A. Kline, H. K. Harnish, Abraham Hunsicker, Sr., J. W. Sunderland, John Wiest, A. W. Myers, H. H. W. Hibshman, A. Van Haagen, J. H. A. Bomberger, J. G. Wiehle, J. Dahlman, Jr., Emanuel Longacre, George Schall, W. L. Graver, William Sorber, Nathan Pennypacker, N. Gehr*, who, or any nine of them, on the passage of this act, or at any time within three months thereafter, may meet and organize by electing a President and Secretary, and accepting this act, the evidence of which shall be the duly authenticated record of such meeting and action.

SECTION 5. That the Board of Directors shall have power to fill all vacancies in their own body, to expel any member thereof who shall be guilty of infamous conduct and to declare vacant the seat of any member who shall have, for three consecutive years, failed to attend the stated meetings of the Board; to appoint, from time to time, such additional officers and agents of their own body as may be deemed requisite, including a Treasurer, who shall always give ample security for the funds entrusted to his keeping; to adopt a common and corporate seal, by and with which all deeds, certificates, appointments and acts of said Board, signed by their President and attested by the Secretary, shall pass and be authenticated, and the same seal at their pleasure to break, alter or renew.

SECTION 6. That the said Board of Directors, at any meeting subsequent to their organization called for the purpose, and of which due notice shall have been given to each member, may adopt and establish a Constitution and By-Laws for the government of their own body, not inconsistent with this act, the laws of the State or the laws of the United States, which Constitution and By-Laws shall not thereafter be altered, amended or repealed except in the manner therein provided.

SECTION 7. That the faculty of any organized department in the College may, with the advice and consent of the Board of Directors, and under such regulations as they may prescribe, confer the degree, honors, and dignities usually conferred by similar departments in the Colleges and Universities of this Commonwealth.

SECTION 8. That no misnomer of this corporation shall defeat or annul any gift, grant, devise or bequest to or from the said corporation. *Provided*, The intent of the parties shall sufficiently appear upon the part of the gift, grant, will, or other writing whereby such state or interest was intended to pass to or from said corporation.

The corporation was organized at a meeting of the Directors held in the City of Philadelphia, February 10, 1869. As a permanent seat for the institution, the property of Freeland Seminary, a private boarding school, located in Upper Providence Township, Montgomery County, Pennsylvania, was purchased. This School had been in successful operation since 1848, and was incorporated into Ursinus College as its preparatory department.

On June 7, 1869, the Rev. J. H. A. Bomberger, D. D., pastor of the First Reformed Church, Philadelphia, was elected President, and on February 10, 1870, the first Faculty was appointed. Instruction was begun September 6, 1870. In 1881 the doors of the College and of the Academy were opened to women. The School of Theology was removed to Philadelphia in 1899.

The College is situated at Collegeville, an attractive town in the Perkiomen Valley, twenty-four miles northwest of Philadelphia. The scenery is varied and beautiful, and the region is healthful. The surroundings are conducive to study and are free from the moral contamination which makes many places unsuitable for obtaining the best educational results.

Collegeville is seven miles distant from Norristown, with which it is connected by trolley. It is easy of access by the Reading Railway from Philadelphia, Allentown or Reading. The College grounds cover twenty-eight acres, including a fine lawn and campus embracing ten acres, tennis courts, an athletic field, and several fields for agriculture.

Bomberger Memorial Hall, named after the first President of the College, a large and imposing structure in the pure Romanesque style of architecture, built of Pennsylvania blue

marble, contains the chapel and auditorium, library, reading room, recitation rooms, laboratories, society halls and offices. It is heated by steam and lighted with gas from the works upon the campus. The College is indebted for the building to the generosity of Mr. Robert Patterson, of Philadelphia, whose donations to the building fund amounted to \$32,000, and to gifts from numerous other friends.

The funds on which the College has been founded and on which it is maintained are derived from the following sources:

1. The gifts of individuals.
2. The tuition fees received from students.
3. Fourteen endowed scholarships of \$1000 each.
4. The John A. Wanner Fund of \$2500.
5. Donations during life of Robert Patterson, of Philadelphia, amounting to \$52,000, and a bequest from him of \$10,000.
6. The Robert Patterson Endowment Fund of \$150,000.
7. The Alumni Endowment Fund of \$11,000.
8. The Church History Fund of \$4000.
9. The Samuel H. Bibighaus Fund, for the Endowment of the Presidency, of \$15,000.

ADMISSION

Candidates for admission must give satisfactory evidence of good character, and students from other colleges are required to furnish evidence of good standing from the college they last attended.

The credentials of candidates must be filed at the Dean's office before permits for examination are issued. The results of examinations, and the action of the Faculty upon applications for admission on certificate, may be ascertained at the same office.

TERMS OF ADMISSION

The studies which may be presented in satisfaction of the requirements for admission to the Freshman class are named in the following list. A candidate must offer from this list studies amounting to 22 points. The figure attached to each study indicates the relative weight which will be given to that study in determining the question of the candidate's fitness for admission :

English (4)	Algebra (2)
Greek (5)	Plane Geometry (2)
or	Physics (2)
German (4)	or
or	Chemistry (2)
French (4)	or
Latin (5)	Physical Geography (1)
Ancient History (2)	and
or	Zoölogy (1)
English and American	or
History (2)	Botany (1)

REQUIREMENTS FOR ADMISSION TO THE FRESHMAN CLASS

Candidates for admission to the Freshman Class must present satisfactory qualifications in the subjects they may offer for admission, in accordance with the requirements as defined in the following list of studies :

ENGLISH.—1. The candidate will be required to write a paragraph or two on each of several topics chosen by him from the list of ten or fifteen, drawn from the books named below and set before him in the examination paper. This part of the examination is designed, primarily, to test the candidate's power of clear and accurate expression, and will call for only a general knowledge of the substance of the books prescribed. He should read the books as he reads other books, not aiming to know them minutely, but to gain a knowledge of their most important parts. In every case knowledge of the book will be regarded as less important than the ability to write good English.

No candidate will be accepted whose work is seriously defective in point of spelling, punctuation, grammar, or division into paragraphs.

The books prescribed for this part of the examination are as follows :

1901 and 1902—Shakespeare's *Merchant of Venice*; Pope's *Iliad*, Books I, VI, XXII, and XXIV; The Sir Roger de Coverley Papers in *The Spectator*; Goldsmith's *Vicar of Wakefield*; Coleridge's *Ancient Mariner*; Scott's *Ivanhoe*; Cooper's *Last of the Mohicans*; Tennyson's *Princess*; Lowell's *Vision of Sir Launfal*; George Eliot's *Silas Marner*.

1903, 1904, and 1905—Shakespeare's *Merchant of Venice* and *Julius Cæsar*; The Sir Roger de Coverley Papers in *The Spectator*; Goldsmith's *Vicar of Wakefield*; Coleridge's *Ancient Mariner*; Scott's *Ivanhoe*; Carlyle's *Essay on Burns*; Tennyson's *Princess*; Lowell's *Vision of Sir Launfal*; George Eliot's *Silas Marner*.

2. In addition, an examination upon the subject-matter, literary form and logical structure of each of the works named below will be required. A careful and critical study of the works will be necessary to prepare the candidate for the examination, which is intended to test his ability to express his knowledge with clearness and accuracy no less than his knowledge of the works. The student may be required to answer questions on the leading facts of the literary periods to which the works belong.

1901 and 1902—Shakespeare's *Macbeth*; Milton's *Lycidas*, *Comus*, *L'Allegro*, and *Il Penseroso*; Burke's *Speech on Conciliation with America*; Macaulay's *Essays on Milton and on Addison*.

1903, 1904, and 1905—Shakespeare's *Macbeth*; Milton's *Lycidas*, *Comus*, *L'Allegro* and *Il Penseroso*; Burke's *Speech on Conciliation with America*; Macaulay's *Essays on Milton and on Addison*.

GREEK.—1. Grammar, pronunciation as recommended in Goodwin's *Greek Grammar*.

2. Xenophon, four books of the *Anabasis*.
3. Homer, three books of the *Iliad*.
4. Translation at sight of average passages in Attic prose.
5. Prose Composition, the translation into Greek of simple English sentences. White's *First Greek Book*, complete, or an equivalent.
6. Ancient Geography.

LATIN.—1. Grammar, Allen & Greenough ; Roman pronunciation.

2. Cæsar, four books of the Gallic war.

3. Vergil, six books of the Æneid, with prosody.

4. Cicero, six orations, the four against Catiline, the one for Archias and the one for the Manilian Law.

5. Translation at sight of passages of average difficulty from Cæsar and Cicero.

6. Prose Composition, the translation into Latin of simple English sentences. Collar's Practical Latin Composition is recommended.

GERMAN.—1. Pronunciation, Grammar with Exercises and Conversation ; Joynes-Meissner's German Grammar to page 230 ; Guerber's Erzählungen.

2. Texts for translation ; Super's Elementary German Reader or Andersen's Märchen ; Stern's Geschichten vom Rhein ; Stifter, Das Haide Dorf.

3. Translation at sight of modern German prose.

4. Prose Composition, the translation into German of connected English narrative.

FRENCH.—1. Pronunciation, Imitative Reading, Grammar with Exercises in Composition ; Joynes's Minimum French Grammar and Reader.

2. Texts for translation ; Malot's Sans Famille ; De Rougemont's La France ; Erckmann-Chatrian's Histoire d'un Paysan.

3. Translation at sight of modern French prose.

4. Prose Composition, the translation into French of simple English narrative.

HISTORY.—1. Ancient History, including :

(a) History of Greece, as contained in Myers's or Oman's History of Greece.

(b) History of Rome, as contained in Myers's Rome : Its Rise and Fall, or Leighton's History of Rome.

2. English and American History, including :

(a) History of England, as contained in Coman and Kendall's History of England, or Montgomery's Leading Facts of English History.

(b) History of the United States, as contained in McMaster's School History of the United States, or Fiske's History of the United States.

Students presenting English and American History for entrance to College will be required to make up the Greek and Roman History during Freshman year. See "History 1," pp. 37-8.

MATHEMATICS.—1. Arithmetic, as much as is contained in any standard text-book ; the metric system of weights and measures, as in Beach and Gibbens.

2. Algebra, through quadratic equations, radicals and the theory of exponents, as contained in Wells's Academic Algebra, or any other good text-book.

3. Plane Geometry, as much as is contained in the first five books of Chauvenet's Geometry, or an equivalent portion of the treatises of Wentworth, Wells or Newcomb.

PHYSICS.—1. Class-work, as treated in Avery's School Physics or Gage's Elements of Physics. Class-room exercises as contained in Avery will be expected.

2. Laboratory work ; a course of experiments not less than forty in number performed by the pupil, evidence of which must be submitted, certified by his teacher, together with his original laboratory note-book.

CHEMISTRY.—1. Text-work equal in amount to that given in high-school text-books.

2. Laboratory work ; at least fifty experiments performed by the candidate himself. The note-book containing a record of the experiments must be presented at the examination.

PHYSICAL GEOGRAPHY.—The equivalent of Davis's Physical Geography.

ZOOLOGY.—1. Text-work equal in amount to that contained in Needham's Zoölogy.

2. Laboratory work ; the study of at least ten common types of animal life, the drawings and description of which must be presented by the candidate in a laboratory note-book certified by the teacher.

BOTANY.—1. Text-work equal in amount to that contained in Gray's Field Book of Botany or its equivalent.

2. Laboratory work ; dissection and the study of the life history of at least ten types of seed plants and the ability to analyze the ordinary plants. The laboratory note-book must be presented by the candidate at the examination.

THE REGULAR EXAMINATIONS FOR ADMISSION are held in Memorial Hall on Monday and Tuesday of Commencement week, June 10th and 11th, 1901, and on Monday and Tuesday, September 16th and 17th, at the opening of the collegiate year.

STUDENTS NOT CANDIDATES FOR A DEGREE

Students who have passed the examinations required for admission to any one of the Courses of Study may register as optional students, and elect such work as may be open to them.

Such students are subject to the same regulations in regard to number of hours, examinations, proficiency and general academic duties as students in the regular courses.

Under this regulation, instruction in Ursinus College is open to all persons who possess the requisite preparation to pursue with profit particular courses of study. While the student cannot obtain a degree under this regulation, he may enjoy the advantage of collegiate training for a period, and prepare himself the better for professional study or for the active pursuits of life.

ADMISSION WITHOUT EXAMINATION

I. FROM THE ACADEMY

All students of the Academy of Ursinus College, who have passed a satisfactory final examination in the subjects required for admission, and are recommended by the Principal of the Academy, are admitted to Freshman Class without examination.

II. ON CERTIFICATE

Students from such High Schools, Academies and Normal Schools as have been approved by the faculty are admitted to college without examination, on the presentation of a certificate of the form prescribed by the faculty.

The certificate must set forth the grade attained by the student in each of the subjects required for admission, the length of time devoted to the subject and the text used in its study. For slight deficiencies, conditions may be imposed.

No certificate will be accepted for German or French, allowed as a substitute for Greek in the requirements for admission.

All communications on this subject and all certificates are to be addressed to the Dean of the College, from whom also blank forms for certificates may be obtained.

III. AS SPECIAL STUDENTS

Persons who give satisfactory evidence of their fitness to pursue the particular courses they may elect, are admitted to the

College as special students, upon the recommendation of the professor in charge of the department in which they desire to take the larger part of their work. To secure such recommendation, the candidate must correspond directly with the professor in whose department he expects to take work, and when admitted he will be under the direction of such professor who will stand to him in the relation of adviser.

Special students are subject to the same regulations in regard to number of hours, examinations and general academic duties as students in the regular courses. A certificate of proficiency will be given, if desired, to any special student who has faithfully pursued his chosen subjects throughout a year and has attained a grade not lower than B. Such students may also graduate in any of the courses, on condition of doing the class-work and passing the required examinations of the course, including those for admission.

ADMISSION TO ADVANCED STANDING

On presenting evidence of good character, a student may be admitted to advanced standing at the beginning of any term, not later than the first term of Senior year; either

1. BY EXAMINATION, in all the studies required for admission to Freshman Class and in the studies which have been pursued by the class he may wish to enter, provided the candidate attain a grade not lower than B in such examination; or

2. FROM ANOTHER COLLEGE, provisionally, to such standing as he may have held in the college he last attended, upon written evidence of his standing and of the work done in the college from which he comes.

GOVERNMENT

Students whose application for admission to College has been approved by the Faculty, become members of the institution by matriculating at the Dean's office.

REGISTRATION

Students in all courses register at the beginning of the collegiate year for the work of the whole year. No credit is allowed for work not so registered. No student, after having once been admitted to the institution, will be allowed to register after the close of registration day, neither will changes in registration be allowed later than the end of the week after registration day, except by special permission of the Faculty.

CLASSIFICATION

No student is registered in any class who has not completed the required work and examination of his course including entrance requirements, up to the beginning of the year preceding that in which he seeks standing and the major part of the requirements of the preceding year.

ALLOWED ABSENCES

A student who is absent from more than one-eighth of the total number of recitations, lectures and special exercises in any study during a term, is required to take an extended examination. Absences within the one-eighth limit will not be marked, nor will they affect a student's record for scholarship; but they will not excuse him from preparation upon the omitted lessons in the review or examination. Under this rule unexcused lack of preparation of a lesson, or three tardinesses will be counted as an absence.

Students are required to be present at College on the first day of each term. Absences will be counted from the first class exercises in any subject, and at the beginning or end of the term and immediately preceding or following a recess, absences count double. Students are not allowed to leave College during term-time without permission obtained from their Advisers.

ADVISERS

Every student is amenable during his residence to his Class Adviser, who is a member of the Faculty, and who will stand to him in the relation of a friendly counsellor. The Class Adviser

is the ordinary medium of communication between the student and the Faculty. To him are made applications for excuses, for permission to go out of town and for leave of absence.

In the choice of his studies the student consults the professor of the Group he desires to elect, who may be designated as Group Adviser. Without this professor's approval the student cannot register for any of his studies, nor can he, without such consent, discontinue any study.

PUBLIC WORSHIP

The scholastic duties of each day are opened with suitable devotions, led by the President of the College, which every student is required to attend.

The students are required to attend worship on Sunday morning in some adjacent church of their own or their parents' choice.

COURSES OF INSTRUCTION

The following courses of instruction will be provided by the Faculty for the year 1901-1902.

The courses are arranged as full courses or half-courses, according to the estimated amount of work in each and its value in fulfilling the requirements for graduation. Half-courses are designated as such, and, in general, represent three hours of class work a week for a half year, or two hours for a year. All other courses are full courses, requiring three hours of class work a week for a year, or two hours of class work and a prescribed amount of outside work. Laboratory courses count as a full course and a half course.

In each of the four years of his college course a student must take studies amounting to *five full courses*, or an equivalent amount of courses and half-courses.

DEPARTMENT OF LANGUAGE AND LITERATURE

GREEK

Professor WEINBERGER

- A. Elementary Greek.—White's First Greek Book.—Elementary Composition.—Reading of Selections from the Anabasis of Xenophon. *Tu.*, at 9; *Wed.*, at 2; *Th.*, at 9.

This course may be elected by students who wish to acquire by extraordinary effort in one year, the ability to read Attic prose.

1. Xenophon, Memorabilia.—Charges against Socrates are discussed.—Syntax.—Homer, Selections from the Iliad.—Greek Prosody.—Exercises in Scanning.—Reading at Sight.—Greek Literature.—Greek Prose Composition. *Mon.*, *Wed.*, *Fri.*, at 9.

Course 1 is prescribed in the Classical group, and in the other groups for students who offered Greek for admission.

2. Herodotus, Babylonian History.—Study of the Ionic Dialect.—Plato, Apology and Crito.—Moods and Tenses.—Greek Philosophy. *Tu.*, *Th.*, at 9; *Fri.*, at 10.

Course 2 is prescribed in the Classical group, and is not offered in the other groups.

3. Demosthenes, De Corona.—Plan of the Oration and Grecian History discussed.—Æschylus, Agamemnon.—History of the Play.—Greek Theatre.—Sophocles, Œdipus Tyrannus. *Mon.*, *Wed.*, *Fri.*, at 11.

2. Syntax, Idioms, Translation, Composition, Narrative Prose.—Garner, Spanish Grammar.—Perez Galdós, Doña Perfecta.—Calderón, La Vida es Sueño.—Moratin, El Sí de las Niñas. *Tu., Wed., Th., Fri., at 11 (Second term).*

DEPARTMENT OF BIBLE STUDY

THE ENGLISH BIBLE

Mr. KLINE

1. Old Testament Course.—A critical study of the history of the Old Testament, elucidated by Semitic tradition and contemporaneous history, together with an analysis of the construction of the books of the Old Testament. *Half-course, Tu., at 10.*
 2. New Testament Course.—Jewish History of the time of Christ, together with the study of the Gospels in their chronological arrangement and the Apostolic History in its main outlines. *Half-course, Tu., at 10.*
- Courses 1 and 2 are given in alternate years; Course 1 will be omitted in 1901-1902.

DEPARTMENT OF PHILOSOPHY AND PSYCHOLOGY

PHILOSOPHY

Professor URBAN

1. Logic, deductive and inductive.—A study of the formal laws of thought and their application to the special methods of the sciences.—Jevon, Lessons in Logic; Hibben, Inductive Logic. *Half-course (First term). Mon., Wed., Th., at 10.*
2. History of Philosophy.—Typical systems in ancient philosophy; modern philosophy from Descartes through Kant; important tendencies in Post-Kantian thought.—Weber, History of Philosophy. *Tu., Th., at 12.*
3. Seminary in Philosophy.—First term, reading and discussion of texts in connection with Course 2. Second term, critical discussion of metaphysical problems. Paulsen, Introduction to Philosophy. *Mon., 7.30 to 9.30 p. m.*

Course 3 required of all candidates for honors in philosophy.

4. Ethics and the Philosophy of Religion.—Critical study of ethical theories used as a basis for a constructive philosophy of morals. Mackenzie, *Manual of Ethics*.—Problems of religion, with special reference to the nature and validity of the theistic proofs.—Schurman, *Belief in God*; Flint, *Theism*. *Tu., at 10; Wed., Fri., at 12.*
- 5a. *Æsthetics*.—Outline history of the fine arts, with the use of photographs and other reproductions.—G. Baldwin Brown, *The Fine Arts*. *Half-course (First term). Wed., Th., Fri., at 2.*
- 5b. A course in *æsthetic theory*.—Aristotle's *Poetics* and Lessing's *Laocoon* read and discussed. With English 6. *Half-course (Second term), Mon., Tu., at 2.*

PSYCHOLOGY

Professor URBAN

1. Introduction to Psychology.—An elementary course in descriptive and experimental psychology. Lectures, demonstrations and text.—Stout, *Manual of Psychology*. *Half-course (Second term). Mon., Wed., Th., at 10.*
2. Advanced Course in Psychology.—Lectures on the problems and methods of experimental psychology, with laboratory experiments and research. Modern Psychological Theory.—Special problems of genetic and social psychology discussed in lectures, to be supplemented by required reading under the direction of the instructor. *Hours to be arranged.*

PEDAGOGY

Professor URBAN, Mr. OMWAKE

1. History of Education.—Outline history of the development of educational theory and of school organization. *Half-course (Second term). Wed., Th., Fri., at 2.* Mr. Omwake.
2. Theory of Education.—Lectures on the philosophical and psychological foundations of education.—Application of pedagogical principles to the practical problems of method in teaching, construction of curricula and school organization. *Half-course (Second term). Wed., Th., Fri., at 2.* Professor Urban.

DEPARTMENT OF HISTORY AND POLITICAL SCIENCE

HISTORY

Professor BARNARD

1. Mediæval and Modern History.—A fundamental course, intended to impress the main facts of the periods, with their inter-relations, and at the same time to acquaint the student with right methods of historical study.—Adams, *Mediæval and Modern History*. *Mon., Tu., Th., at 12.*

Course 1 is prescribed in all the groups. It pre-supposes a thorough acquaintance with Greek and Roman History, as outlined in the requirements for admission.

2. English Constitutional History.—Showing how the English Constitution of to-day is the crystallization of England's political thought and practice since Anglo-Saxon times.—Macy, *The English Constitution. Half-course (First term)*. Tu., Th., at 9; Fri., at 10.
3. English Economic History.—The varying conditions of English agriculture, manufacture and commerce from the Norman Conquest to the present time; economic legislation, and voluntary associations.—Cheyney, *The Industrial and Social History of England. Half-course (Second term)*. Tu., Th., at 9; Fri., at 10.

Courses 2 and 3 are prescribed in the Historical-Political group, and are elective in all the other groups.

4. History of the United States.—Tracing the rise of Local Institutions, the growth of Union, the development and fusion of Nationality and Democracy, and the conflict between Nationality and State Sovereignty.—Channing, *Students' History of the United States*. Mon., Wed., Th., at 10.

Course 4 is prescribed in the Historical-Political group, and is elective in all the other groups except the Chemical-Biological.

POLITICAL SCIENCE

Professor BARNARD

1. Economics.—A general course in the subject, with special consideration of such topics as Co-operation, Trusts, Trade-Unions, Socialism, Taxation, Banking and Bimetallism.—Bullock, *Introduction to the Study of Economics. Half-course (First term)*. Tu., at 10; Wed., Fri., at 12.

Course 1 is prescribed in all the groups.

2. Comparative Politics.—The evolution of Government during classical and mediæval times, introductory to a comparison of Representative systems, particularly of France, Germany, Switzerland, Great Britain and the United States.—Wilson, *The State. Half-course (Second term)*. Tu., at 10; Wed., Fri., at 12.
3. Political Philosophy.—An examination of the origin, character and aims of the State; of Sovereignty and its location in the Body Politic; and of the sources and nature of Law.—Willoughby, *The Nature of the State. Half-course (First term)*. Mon., Wed., Fri., at 9.
4. Public Finance.—An analysis of the Needs and Resources of the State, of the nature and growth of Public Debts, and of Financial Administration.—Plehn, *Introduction to Public Finance. Half-course (Second term)*. Mon., Wed., Fri., at 9.

Courses 2, 3 and 4 are prescribed in the Historical-Political group, and are not offered in the other groups.

As is indicated above, all work in this department is based on text-books ; but these are supplemented by lectures, collateral reading and papers on assigned topics.

DEPARTMENT OF MATHEMATICS AND SCIENCE

MATHEMATICS

Professor GUMMERE, Mr. DECHANT

1. Algebra.—Smith's Elementary Algebra, American edition, beginning with Ratio and Proportion.—Solid Geometry.—Phillips and Fisher's Elements of Geometry.—Trigonometry.—Wentworth's New Plane Trigonometry and Tables. *Mon., Tu., Wed., Th., at 10.*

Course 1 is prescribed for all Freshmen.

2. Plane and Solid Analytic Geometry, preceded by a short course in Determinants.—Bailey and Wood's Analytic Geometry.—Differential Calculus.—Byerly's Differential Calculus.—*Mon., Wed., Fri., at 9, and an hour at pleasure of Instructor.*

Course 2 is prescribed in the Mathematical-Physical group, and is elective in the other groups.

3. Integral Calculus.—Byerly's Integral Calculus. *Mon., Wed., Fri., at 11.*
Course 3 is prescribed in the Mathematical-Physical group, and is elective in the other groups.

4. Higher Algebra.—Plane and Solid Analytic Geometry, advanced course. Differential Equations. *Mon., 2-4; Tu., at 2.*

Course 4 is prescribed in the Mathematical-Physical group, and is not offered in the other groups.

In all the courses the solving of problems constitutes a large portion of the work. Stress is laid upon this feature of the work. In courses 2, 3 and 4 collateral reading in French or German works is required.

PHYSICS

Professor GUMMERE, Dr. STUBBS

- A. Elementary Physics, with laboratory work. Class work, *Th., Fri., at 2.*
Laboratory work, *Th., Fri., from 3 to 5.*

Course A is prescribed for students who do not offer Physics for admission.

1. General Physics.—Hastings and Beach, General Physics.—Throughout the course problems are assigned. This course is open only to students who have taken Mathematics 2. *Mon., Tu., Th., at 12.*

2. Experimental Physics.—Laboratory Work.—Two afternoons of each week are spent in the Physical Laboratory. This course accompanies Course 1; and Course A, or its equivalent, is a prerequisite for admission to it. Sabine's Manual is used as a guide, but is supplemented by experiments taken from other sources. *Mon., Tu., at 2.*

Courses 1 and 2 are prescribed in the Mathematical-Physical group, and are elective in the other groups, except the Chemical-Biological, in which they are not offered. All students working in the Physical Laboratory are required to keep in note-books an orderly record of their experimental work. These books are examined at regular intervals, and form the basis on which marks are given.

3. Advanced Physics.—This course is based upon the following texts :
Ziwet's Mechanics; Maxwell's Theory of Heat; Preston's Theory of Light; J. J. Thomson's Elements of Electricity and Magnetism. Mathematics 3 is a prerequisite for admission to this course. *Mon., Tu., Thu., at 12.*

Course 3 is prescribed in the Mathematical-Physical group, but is not offered in the other groups.

ASTRONOMY

PROFESSOR GUMMERE

1. General Astronomy.—Young's General Astronomy (last edition). In addition to the text work some of the simpler problems of practical astronomy are considered. *Mon., Th., at 8, with a third hour at the pleasure of the Instructor.*

Course 1 is prescribed in the Mathematical-Physical group, and is elective in the other groups. The Department is provided with a four-inch refracting telescope, equatorially mounted.

Omitted in 1901-1902.

CHEMISTRY

Professor MENSCH, Dr. STUBBS

1. A—General Chemistry. This course embraces a consideration of the most important properties of the elements and their principal compounds. Three lectures a week throughout the year. *Tu., Th., at 11; Fri., at 12.*
2. Laboratory Work in General Chemistry. From the beginning of the year to April five hours a week are spent in experimental work in General Chemistry. In this course each student is required to perform for himself the various experiments upon the different elements and their compounds discussed in the lectures. From the beginning of April to the end of the year the same number of hours are given to systematic qualitative analysis. *Mon., Tu., at 2.*

Courses 1 and 2 cannot be elected separately.

3. B—Organic Chemistry. During the Junior year students in the Chemical-Biological Course spend from two to three hours a week in the preparation of organic compounds. Remsen's Compounds of Carbon is used as a text-book in the work. *Half-course, Wed., at 2.*

BIOLOGY

Professor MENSCH

1. General Biology.—From the beginning of the year to April three lectures a week are devoted to the consideration of the fundamental facts of Biology as represented in some of the typical forms of higher and lower organized plant and animal life. The course begins with the study of simple cell-life as found in yeast, amœba, hæmatococcus, bacteria, mould-fungi, and from that proceeds to the examination of the plant phase of life in typical form of algæ, mosses, vascular cryptogams and phanerogams, after which such types as paramecium, hydra, earthworm, crayfish, frog, catfish, pigeon and rabbit are considered.

Embryology.—Following the course in General Biology to the end of the year, three lectures weekly are given on the elements of Embryology. *Mon., Tu., Th., at 12.*

2. Laboratory Work.—Five hours weekly are spent in the practical study of the various forms of plant and animal life described in the lectures. In this work the student is taught the use of the microscope, and also to observe for himself and to interpret what he sees. He is required to make frequent drawings of his observations and submit them for inspection. A full set of laboratory notes has been prepared for this course, in which frequent references to standard text-books on the shelves of the College Library will aid the student in his work. In connection with the lectures on Embryology five hours a week for the same length of time are spent in laboratory work upon this subject. The development of the frog is first studied and segmentation carefully observed, after which the student spends the remainder of his time in tracing the most important stages in the development of the chick. *Mon. Tu., at 2.*

3. Osteology.—During the second half of the year two hours a week are spent in the study of Human and Comparative Osteology, the course consisting of lectures alternating with laboratory work. *Half-course, Fri., at 2.*

4. Zoölogy.—Lectures upon the elements of Zoölogy, including Mammalian Anatomy. Two lectures a week. *Wed., Fri., at 11.*

Laboratory Work.—The laboratory work of this course consists of a detailed dissection of the cat and one or more other typical mammals, after which other forms of vertebrates and invertebrates are studied, particular attention being given to marine forms.

5. Physiology and Histology.—Throughout the year two lectures a week are given on the essentials of Physiology and Histology. Accompanying the lectures Foster's Physiology will be used as a text-book, and examinations thereon given at stated intervals. *Mon., Tu., at 11.*

Laboratory Work.—In Physiology the work consists of experiments upon muscles, nerves, the heart, reflex actions, and the most important parts of Chemical Physiology, such as the digestive fluids and proteids. In Histology the student is taught the usual method of staining tissues; sectioning and mounting histological specimens, each student being required to prepare his own material. Eight hours weekly. *Tu. Wed., Th., Fri., at 2.*

6. Seashore work in Embryology or Physiology at the Marine Biological Laboratory, Woods Holl, Mass.

Required for the Medico-Chirurgical Scholarship.

Courses 3, 4 and 5 constitute the advanced work in Biology and with 1 and 2 complete the requirements for admission to the second year of the four year medical courses.

Students who have successfully pursued all the courses offered in Chemistry and Biology, including both the required and optional work, and have fulfilled all the requirements for the Baccalaureate Degree, are granted a certificate which will admit them without examination to the Second Year of the Medico-Chirurgical and the Jefferson Medical College, and the Hahnemann Medical College.

ARRANGEMENT OF COURSES

The courses of Instruction named in the preceding pages are offered to the students of Ursinus College in carefully arranged groups, each comprising (1) dominant subjects, which adapt the courses to the needs of particular classes of students and which afford special preparation for future professional study; (2) related subjects, to give the breadth and symmetry requisite in a liberal education; (3) studies common to all the groups and required of all students.

A student may follow strictly the group which he has chosen; or he may substitute, with the approval of his adviser and the Faculty, other studies for one, or more, elective courses laid down in his group; or, at the close of a year, he may obtain permission to change to another group. When a student changes to another group he will, however, receive credit on his required work for graduation only for such of the prescribed courses which he may have completed as are included in the group to which he has received permission to change.

CHOICE OF STUDIES

Before a student can register at the beginning of the college year he must obtain his Group Adviser's approval of his choice of studies (in a book provided for that purpose). In submitting his choice to his Adviser he must include in the list all his studies, both prescribed and elective, *for the whole year*.

A student may not elect a course unless he has fulfilled all the requirements for that course, or otherwise satisfies the instructor that he is prepared to pursue it.

Every student must make his election so as to avoid conflict between the hours appointed for recitations in the courses which he chooses.

Every student is required to be present at the first meeting of each of his courses, whether prescribed or elective.

NUMBER OF COURSES

In each of the four years of his college course a student must take studies amounting to *five full courses*, or an equivalent amount of courses and half courses.

In case a student's record of work performed is complete at the beginning of any year, he may elect a sixth course, as an extra study. Extra studies do not count towards the twenty full courses required for the A. B. degree but are allowed to count for department honors. A student electing an extra study must complete it the same as a regular course. In case one of the courses includes laboratory work, an excess of one-half course is allowed.

DEFICIENCIES

A student whose record is deficient at the beginning of any year must pursue during that year such studies, in addition to his regular work, as may be necessary to make up the deficiency, in accordance with the regulations of the College.

A student who on admission is conditioned in any study may make good the deficiency either by taking the course in the college or academy, or by passing the mid-year and final examinations in that course.

ADMISSION SUBJECTS

No study presented in satisfaction of the requirements for admission may be counted as College work.

A language offered for admission to College must be continued throughout the Freshman year.

MODERN LANGUAGES

Two years of German and two of French are required before Senior year of the students in all the groups except the classical, in which only one year of each modern foreign language is prescribed. Students who have passed French or German in place of Greek for admission are required to take only one year of the modern language passed, but must complete two years of the other language before the Senior year.

CLASSICAL GROUP

The figures following the subjects refer to the courses of instruction, as arranged according to departments in the preceding pages. For details as to topics, text-books and methods of instruction in each subject, consult preceding pages.

Prescribed courses are printed in heavy-faced type; elective courses in light-faced type.

GRADES OF SCHOLARSHIP

The standing of a student in each of his courses is expressed, on the completion of the course, according to his proficiency, by one of five grades, designated respectively by the letters A, B, C, D, E. Grade E in any course denotes failure.

A permanent record is kept of each student's work, and a report of the same is sent to his parents or guardian at the close of each term.

HONORS

COMMENCEMENT PARTS

Commencement parts, assigned as honors to the members of the graduating class, are valedictory and salutatory, and are assigned in the order of rank in scholarship. At the discretion of the Faculty an oration may be assigned as a third commencement part.

GRADUATION WITH DISTINCTION

Members of the graduating class who have shown great proficiency in their entire course, may be graduated with distinction if, in the opinion of the Faculty, their attainments warrant such honors. These distinctions are : Summa cum laude, Magna cum laude, and Cum laude ; and are given only for unusual excellence in all the subjects pursued by the candidate.

DEPARTMENT HONORS

Department honors will also be conferred upon students who have received A in all the courses designated by the Faculty as honor courses. All honors will be announced at Commencement and published in the annual catalogue.

SOCIETIES

For the mutual improvement of the students two Literary Societies are maintained in the College, the Zwinglian and the Schaff. Each occupies a special hall for its meetings.

The young men also maintain a flourishing Christian Association, which holds weekly prayer-meetings, engages in special Bible study, and is an active agent in promoting the religious life of the College.

CLUBS

Voluntary associations, in which instructors and students meet periodically for the reading of papers, oral discussion and practical work are encouraged in connection with the departments of instruction. The Mathematical-Physical Club is doing active work of this kind. The Camera Club is open to persons not members of the college.

THE LIBRARY AND READING-ROOM

The Library of Ursinus College is open every week-day to all the students for consultation and for the drawing of books. It is completely indexed and catalogued, rendering everything in the Library bearing on any subject easily accessible.

The College Reading-Room is open to the students every day and evening. During the current year the following newspapers and periodicals have appeared on its files and tables :

NEWSPAPERS.—The Philadelphia Ledger, Record and Times ; The Reading Eagle ; Norristown Register and Review ; Pottstown Ledger ; The Montgomery Transcript ; The Lansdale Republican ; The Lykens Register ; The Collegeville Independent ; Millersville Normal Journal ; American Economist ; Scientific American ; Publications of the Reformed Church, Christian World, Messenger, Kirchen-Zeitung, Record, Herald, Tidings, Brotherhood Star, Independent, Outlook, Presbyterian ; Christian Work ; Advocate of Peace ; Union Gospel News ; Christian Intelligencer.

PERIODICALS.—Atlantic Monthly ; Harper's Magazine ; Century ; Cosmopolitan ; The Review of Reviews ; Educational Review ; School Review ; Classical Review ; Popular Science Monthly ; Science ; American Naturalist ; Zoologischer Anzeiger ; Journal of Morphology ; Mind ; Contemporary Review ; Fortnightly Review ; Nineteenth Century ; North American Review ; Forum ; Psychological Review ; Philosophical Review ; Sunday Magazine ; The Double Cross ; The Manufacturer ; Photographic Times ; W. C. T. U. Bulletin ; The American ; Men ; Der Korrespondent ; Deutsche Monatsschrift ; Missionary Review of the World ; The Jewish Missionary Herald ; China's Millions ; Woman's Journal ; and a number of other periodicals.

LABORATORIES

THE BIOLOGICAL LABORATORY

The Biological Laboratory occupies a separate room, well-lighted and especially arranged for biological work. The equipment consists of twenty compound microscopes, dissecting microscopes, projective microscope, microtomes, oil-immersion objectives, camera lucida, water-baths, and such instruments and reagents as are necessary for carrying on work in general morphology, microscopical anatomy and embryology. Each student is provided with a microscope and dissecting instruments, besides a certain amount of glassware, for his exclusive use, and for the care of which he is held responsible. For the laboratory work in Physiology, apparatus has been provided for experiments on muscle contraction, recording of heart-beat, nerve stimulation, and other important work, the apparatus including a hæmocyto-meter, kymograph and a du Bois-Reymond induction machine.

THE PHYSICAL LABORATORY

The Physical Laboratory is situated in the second story of Memorial Hall. Modern improvements have recently been introduced and large additions made to the equipment, so that excellent facilities are provided for experimental work in every branch of Physics. The apparatus is of modern design, and has been selected with great care from the best European and American makers. The list includes a small dynamo, galvanometers with telescope and scale, dynamometer, resistance coils, resistance box, wheatstone bridge, spectrometer (Geneva Society), spectroscope (Geneva Society), polariscope, and a Ruhmkorff coil.

The dark-room, for photographic work, 10 x 12 ft. in size, is provided with running water, sinks, and all necessary apparatus for making negatives and lantern slides.

THE CHEMICAL LABORATORY

The Chemical Laboratory occupies a commodious and well-ventilated room equipped with all the necessary apparatus for experimental work in general Chemistry. Tables have been fitted up for the accommodation of twenty-five students, and each table is provided with such appliances as are necessary for gas generation and measurement, distillation, and the performance of experiments belonging to this course.

An additional number of tables has also been equipped for the performance of experiments in Physiological Chemistry in connection with the course given in Physiology.

THE PSYCHOLOGICAL LABORATORY

The Psychological Laboratory, for which apparatus has been gradually acquired, now occupies a large room in Memorial Hall, especially fitted up for its use.

It contains all the instruments necessary for the demonstration of the important results of experimentation on the senses, for the accurate measurement of the time relations of mental phenomena, and is provided with a dark room.

Among the important pieces in the collection are a specially designed chronograph, revolving drums, a psychological pendulum, and a complete set of tuning forks for experiments on sound.

PHYSICAL DEPARTMENT

To preserve the health and promote the physical development of the students, the necessary facilities and appliances for in-door exercises have been provided. The general aim of the work is to secure symmetrical development, stronger nerves and a healthful condition of the bodily organs. In the system of exercises are included hygienic gymnastics, for the health, educational gymnastics, to teach muscular control, and recreative gymnastics, to rest the mind while exercising the body.

The Gymnasium is fitted up on the ground floor of East College with apparatus for exercise by means of parallel bars, horizontal bar, horse, pulley-weight machines, dumb-bells and Indian clubs. The toilet rooms are on the same floor, with facilities for shower and needle baths.

Out-door exercise is encouraged, and cordial support is given to athletic sports. The athletic field of the College affords superior grounds for the use of the foot-ball and base-ball teams, and on the campus grounds have been set apart and graded for lawn tennis and field sports.

DORMITORIES

Three buildings on the campus are used mainly for dormitory purposes. A professor, or proctor, resides in each building. The rooms are heated by steam, and each building is supplied with water. Young men from a distance are expected to room in the dormitories. Should any prefer to take rooms elsewhere, they will be charged with the rent of the vacant rooms in the dormitories. No student, however, will be held responsible for the rent of more than one room. The occupants of College rooms are held responsible for any damage done to the rooms or to the furniture in them.

EXPENSES

COLLEGE FEES

The college expenses of a student, including tuition, library, laboratory, gymnasium, and all other fees, are \$100 a year. Of this amount \$50 represents tuition or the value of a scholarship. Candidates for the ministry and children of ministers are exempt from the payment of tuition.

A charge of ten dollars is made in the last bill of Senior year to cover expenses of graduation.

A deposit of five dollars is required of each student to defray any expenses incurred by injury to property. The unexpended balance is returned to the student when he leaves the institution.

A student who is absent from College on account of sickness, or for any other cause, and retains his place in his class, pays the term bill in full during such absence, and payment is required before the student can be admitted to examination.

ROOM AND BOARD

The charge for a room in the college dormitories is \$50 a year, including heat, light and attendance. When two students occupy a room the charge is divided between them. A payment of five dollars on account is made by a student when he engages a room, which he forfeits in case he does not occupy the same.

Students pay ten dollars a year additional for college rooms that are furnished. The furniture in them includes single iron beds, wash stand, wardrobe, table, chairs, lamp, mirror and rug.

Students furnish their own sheets, pillow cases (19x34), and blankets.

Board may be obtained in clubs at an average of seventy-five dollars for the college year. At the college dining hall the charge is one hundred dollars a year.

EXPENSES OF A STUDENT FOR ONE YEAR

Room, two students in a room, each,	.				25 to	35
Board,	75 to	100
					<hr/>	
					\$200 to	\$235

Students for the ministry \$50 less.

PAYMENT OF BILLS

Bills are due and must be paid, or their payment secured, at the college office, one-half at the opening of the year, before the student is enrolled for class-work, and the other half at the middle of the year during the month of January.

PECUNIARY AID

Young men otherwise unable to command the privileges of the institution are aided to the extent of their tuition bills, and in some cases in their room bills also, by giving them opportunity to render service to the College; by giving them a loan on approved security payable after graduation, without interest; or by beneficiary support. Students desiring aid in any of these forms must apply to the President of the College, and must sign an agreement embodying the conditions on which the aid is given.

ENDOWED SCHOLARSHIPS

The College possesses fourteen endowed scholarships of one thousand dollars each, yielding free tuition. Each scholarship is assigned annually to a student designated by the founder of the scholarship or by the College. The list of these scholarships is as follows :

THE GEORGE WOLFF SCHOLARSHIP, founded by the Rev. George Wolff, D. D., of Myerstown, Pa.

THE WILLIAM A. HELFFRICH SCHOLARSHIP, founded by the Rev. W. A. Helffrich, D. D., of Foglesville, Pa.

THE NATHAN SPANGLER SCHOLARSHIP, founded by Mr. Nathan Spangler, of York, Pa.

THE ANNA M. BOMBERGER SCHOLARSHIP, founded by Miss Anna M. Bomberger, with gifts amounting to \$600, and completed by Mrs. H. S. Bomberger, both of Lancaster, Pa.

THE ABRAHAM WAGNER SCHOLARSHIP, founded by the will of Mr. Abraham Wagner, of the Robison Church, Berks County, Pa.

THE CARSON SCHOLARSHIP, founded by the will of Captain John Carson, of Newburg, Cumberland County, Pa.

THE KELKER SCHOLARSHIP, founded by Mr. Rudolph F. Kelker, of Harrisburg, Pa.

THE KEELEY SCHOLARSHIP, founded by Mr. Joseph Keeley, of Spring City, Pa.

THE JOHN B. FETTERS MEMORIAL SCHOLARSHIP, founded by Mrs. Rebecca B. Feters, of Uwchlan, Chester County, Pa., in memory of a deceased son, who died after a week's attendance at College, in September, 1885.

THE JOHN BROWNBACK MEMORIAL SCHOLARSHIP, founded by Mrs. Melinda M. Acker and Miss Mary M. Brownback, of Uwchlan, Chester County, Pa., in memory of their deceased father.

THE FRANKLIN W. KREMER MEMORIAL SCHOLARSHIP, founded by the Rev. F. W. Kremer, D. D., with gifts amounting to \$500, and completed by the Sunday School of the First Reformed Church, of Lebanon, Pa., in grateful memory of his thirty-eight years' pastorate, by an endowment of \$500.

THE HENRY FRANCIS SCHOLARSHIP, founded by Mr. Henry Francis, of Spring City, Pa.

THE CLEMENTINA R. STEWART SCHOLARSHIP, founded by the will of Miss Clementina R. Stewart, of Myerstown, Pa.

THE J. WILLIAM BIRELEY SCHOLARSHIP, founded by Mr. J. William Bireley, of Frederick City, Md.

PRIZES

JUNIOR ORATORICAL PRIZES

F. G. Hobson, A. M., of the Class of '76 has established a prize, consisting of a gold medal, for the best oration delivered at the Junior Oratorical Contest on Monday evening of Commencement Week. A second medal, offered by the Rev. J. W. Meminger, A. B., of the class of '84, is awarded to the oration ranking second at this contest. The third oration receives honorable mention.

ENGLISH PRIZE

A prize of twenty dollars established by Prof. A. H. Fetterolf, Ph. D., LL. D., President of Girard College, will be awarded at the close of the Sophomore year to the student ranking highest in all the courses in English prescribed for Freshmen and Sophomores. The prize will be awarded at Commencement.

ADMISSION PRIZE

The Board of Directors has given authority to the Faculty to award a four-year tuition scholarship to the candidate for admission to Freshmen class who has been a student of Ursinus Academy not less than two years, and who has attained the highest average in all the subjects required for admission to College.

HIGH SCHOOL SCHOLARSHIPS

Four-year tuition scholarships are awarded annually to graduates from the High Schools of the State, one from each School, who have maintained a grade of not less than 7.5 in all the subjects required for admission to Ursinus College, and whose final examination grade is at least 8.5, provided the candidate has pursued all the subjects in regular classes of the School, without private tuition or supplementary instruction.

MEDICO-CHIRURGICAL SCHOLARSHIP

In order to encourage young men to take a College Course before beginning the study of Medicine, the Medico-Chirurgical College, of Philadelphia, offers a free scholarship to one graduate of Ursinus College each year, on the following conditions :

1. The applicant must have taken the degree of A. B.
2. His course of study must have embraced what is known as a Preparatory Medical Course.
3. If there is more than one applicant in the same year the award shall be made to the one having obtained the highest average in his final examinations.

The privileges of these scholarships include :

First.—Exemption from all fees except the Matriculation fee of five dollars, the Graduation fee of thirty dollars, and cost of anatomical material and breakage in the Laboratory.

Second.—Admission to the second year of the four-years' course without examination.

DEGREES

DEGREE OF BACHELOR OF ARTS

The degree of Bachelor of Arts is conferred by the Directors on all persons who have completed the academical exercises appointed for them by the Faculty and, upon final examination, have been approved as candidates for the same. The College bills and Society dues of candidates must be paid or secured to the satisfaction of the Treasurer by the Saturday before Commencement.

DEGREE OF MASTER OF ARTS

The degree of Master of Arts in course is conferred upon graduates of this College, or of any other college making equal requirements for the Bachelor's degree, after they have satisfactorily completed a definite course of graduate or professional study and have submitted an approved thesis, relating to some subject of study pursued, and containing not less than three thousand words. The subject of the thesis must be selected six months before the time when the degree is to be conferred, and must be approved by the Professor in charge of the department to which it is related, and the thesis itself, of which two type-written or printed copies must be submitted, must be approved four weeks before the Commencement at which the degree is to be conferred. Accepted theses become the property of the College.

The Academy is an integral part of the organization of the College. While its course of study, recitations, discipline and general management are distinct and separate from the College, the connection is sufficiently close to give the students in the Academy the benefit of the elevating influences of a college community, with its body of professors and students, its visitors, lectures and diversified intellectual activities.

The central one of the group of buildings on the campus is devoted to the Academy. The Principal resides in the building with the students and has the direct oversight of the organized life of the school.

Students are admitted at any time to the grade for which they are qualified by previous study. Applicants for admission to the first year of the course must be proficient in arithmetic through common and decimal fractions, the elements of English grammar and political geography.

All the facilities of the College for out-door exercise on the athletic field and for in-door exercise in the gymnasium, for training in the literary societies and the Y. M. C. A., and the privileges of the library and reading room are open to Academy students as their experience and needs may require.

The fee for instruction in the Academy is fifty dollars a year. The charge for furnished room and board is one hundred and fifty dollars a year. For instruction in bookkeeping, stenography and typewriting, music, drawing (advanced course) and painting there are additional charges, announced in detail in catalogue published separately by the Academy.

The Directors of the College have established a prize worth \$200, consisting of a four-year tuition scholarship, which will be awarded to the student passing the best examination in all subjects required for admission to Freshman class. Students attending Ursinus Academy not less than two years, and who have secured a record of proficiency in all subjects required for admission to College, by taking the final examinations in those subjects may compete for this prize.

The school year of the Academy is divided into three terms, opening the same day as the College, September 18, 1901. The vacations of the Academy correspond with those of the College.

For Academy catalogue or other information address the Principal at Collegeville.

COURSE OF STUDY

The letters and figures following the subjects refer to the courses of instruction as arranged according to departments in the catalogue issued separately by the Academy.

DEPARTMENT OF MUSIC

JULIA THERESA WILSON, *Director of the Department of Music and Instructor in Piano, Organ and Theory.*

EDITHE OVERHOLT MCCAIN, *Instructor in Violin, Mandolin and Voice.*

THE AIM OF THE DEPARTMENT is to cultivate the sensibility and to enable one to understand and appreciate ART on the side of Music. To this end thorough instruction is provided in Piano, Organ, Violin and Mandolin playing, Vocal and Instrumental Ensemble work, and in Theory of Music.

The detailed statement of courses, expenses, etc., in the Departments of Music and Art will be found in the catalogue published separately by the Academy.

DEPARTMENT OF ART

FLORA A. MESSINGER, *Instructor*

The Department offers thorough instruction in drawing, modeling in clay, and the higher art of painting in all its branches, with the view of fitting the student to do useful work in the industrial arts. To attain this purpose special attention is given to the elementary branches. The studio is equipped with drawing models and casts such as are used in the advanced art schools.

OLEVIAN HALL

Young women attending the College or Academy, who do not room at home or with friends, reside in Olevian Hall, a spacious dwelling on the west campus.

The Hall is in charge of a Principal who stands in the relation of adviser to the young women. Each student receives such supervision as earnest young women absent from home should receive, but no student is subject to unnecessary or annoying restraints.

EXPENSES

The cost of residence in Olevian Hall is \$150 a year for rooms on the second floor, two students in a room, and \$125 on the third floor. This charge includes room, heat and light, attendance and board. The rooms are heated by steam and are furnished by the college, the student supplying sheets, pillow cases, blankets, bed spread and towels. For use in the dining-room the student supplies six table napkins and a napkin ring.

SUMMER SESSION

Summer Courses of Instruction are offered under the authority of the Faculty of Ursinus College, in charge of a committee appointed by the Faculty, of which C. Ernest Dechant, A. B., is Secretary. Information with reference to the Summer Courses may be obtained from the Secretary of the Committee or the President of the College.

The instruction of the Summer Session is given by members of the Faculty or by persons appointed by the Faculty. The work done is counted as work in residence and credit is allowed towards a degree for regular college work in the Summer Session in which the student's grade is A, B or C.

Summer courses may be pursued during the college year in non-residence, and the work done will count toward a degree in subjects in which the student maintains a grade of A or B. A student may not do more than one-third of the work required for a degree in non-residence.

Women as well as men are admitted to the Summer courses.

During the Summer Session the College Library and reading-room will be open from 9 a. m. till 5 p. m. The laboratories for chemistry, physics and biology will also be open for instruction.

Before entering the classes students must register at the office of the Secretary of the Summer Session and pay their fees at the College office. These fees are: Matriculation fee, \$5; fee for instruction, \$10 for each course; for a double course, \$20; laboratory fee, \$5.

The session of 1901 will open on Monday, July 1, at 8 o'clock a. m., and close on Saturday, August 10, at 12 o'clock noon. July 4 will be observed as a holiday. Students are expected to register on Saturday, June 29.

Furnished rooms, including attendance, may be obtained at the College for \$10 for the session for each student; at the Alberta and in private families at \$1 a week. Table board at the College will be \$20 for the session; at the Alberta, \$3 a week; in clubs, about \$2 a week.

ADMISSION

1. The School of Theology is open to students of all denominations of Christians.

2. Each applicant for admission must present a certificate of church membership, in good standing and full communion, or a statement from the church of which he is a member, approving of his purpose to devote himself to the Christian ministry or other Christian service.

3. The requirements for admission are :

- (1) A diploma from an accepted college, certifying that the candidate has received a bachelor's degree.

Or,

- (2) A certificate of preparation for college, including both the ancient classical languages, and a certificate from accepted instructors of satisfactory examinations in Psychology, Logic, Ethics, Rhetoric, General History and Christian Evidences.

Or,

- (3) Evidence of a thorough English education, and a certificate of satisfactory examinations in Psychology, Logic, Ethics, Rhetoric, General History and Christian Evidences.

4. Students may be admitted to advanced standing, provided they have completed in some other theological school an amount of work equal to that covered by the class they desire to enter, and bring evidence of satisfactory standing in the seminary they last attended.

5. Ministers applying for a special course of study, will be received into any of the classes, and certificates will be given for work completed.

6. Students in the School, or ministers in service, may register for the special course leading to the B. D. degree.
